

# Teachings of Hanna Kroeger

## • Beginner Level

with **Gisela Kroeger Hoffman**

**G**isela warmly invites you into the life and teachings of Hanna Kroeger. This class is primarily based on Hanna's teachings and remedies concerning the 7 physical and 7 spiritual causes of ill health. You will learn how to use the pendulum, a simple instrument to measure energy. You will study Hanna's basic body alignments and hands-on healing techniques along with information on specific conditions. Exploring and understanding the negative effects that processed foods, toxins, parasites, and infections have on your body will empower you with knowledge. You will also be introduced to Hanna's wonderful gadgets and their many uses. Our workbook is **Help One Another**, which you may purchase at the workshop.

Gisela's dedication in carrying on her mother's work is both an honor and a blessing to the world. In the classroom the atmosphere is fun and loving as she teaches, demonstrates, and shares her personal life experiences as the daughter of the great legendary healer Hanna Kroeger.
